"Advanced Iridology"

Workshop

"enhance your Iris diagnosis skills with advanced German diagnostics"

Getting to the Heart of Healing

Advanced Iridology Skills

This **two day workshop** is based on the teachings of German Iridologist ~ Dr Josef Angerer.

As a qualified naturopath, lecturer and professional speaker with over a decade of experience, Narelle, will cover the advanced Iris diagnosis signs and corresponding physiological effects. You'll view hundreds of colour example iris slides and expand your iris diagnosis skills.

Expand your knowledge of Iridology with detailed iris signs to get to the heart of disease causes through understanding constitutional strengths and weaknesses and individual susceptibility.

European Constitutions

Discover the 10 German Constitutional types which provide further indepth knowledge of an individuals genetic traits, strengths and weakness including disease susceptibility.

You will gather a wealth of information about your client by just identifying their german constitutional type.

**Venue: Harmony Body & Mind Ctre
14 Billabirra Cres, Nerang**

9:00am - 4:00 pm

Heterochromia

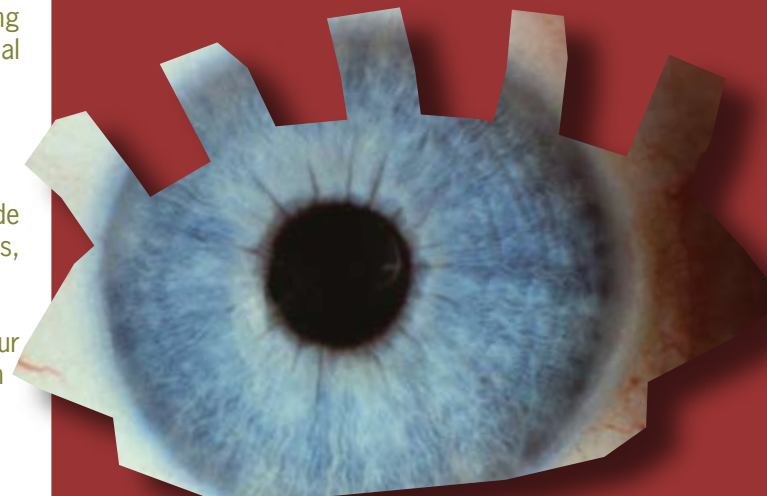

German teachings take an in-depth look at the iris colour. Through colour 'overlays' you will be able to identify digestive enzyme insufficiency, protein imbalance, bile salt abnormalities, insulin resistance among other significant indicators.

Lacunae

We will take a look at over 20 different types of lacunae and their indications for genetic or acquired states of disease. Understand why a person with an asparagus tip lacunae may suffer from headaches... and what is the probable cause!

Advanced Iris, Pupil & Sclera Signs

Add to your collection of iris signs with more detailed information on nerve rings - what's a 'nerve pain' sign compared to a 'spasm' sign along with expanded knowledge on lymphatic congestion signs which go beyond lymphatic rosary. We'll also learn new signs called transversals and diameters. Pupil signs will also be discussed to provide information on cerebro-spinal fluid balance and their physical manifestations when out of balance PLUS learn the basics of sclera signs!
